REFERENCE

With this reference, we confirm our satisfaction with our joint cooperation with STENIK Group Ltd. The STENIK team approached the development and implementation of INTRAMA's new website www.intrama-bg.com with commitment and professionalism, as a result of which we achieved a very good corporate and product presentation of our company in the web space.

The INTRAMA team is extremely pleased with the support in important moments, the responsiveness and quick reaction of STENIK throughout the entire process from development to the launch of our new website in a live environment.

In STENIK Group, we found a reliable and correct partner, with whom we will gladly continue to work on our future projects.
