

*The wine and fine spirits*

## **REFERENCE**

With this reference, we would like to express our high appreciation and gratitude to the team of **Stenik Group Ltd.**, hereinafter referred to as **Stenik**.

**"Commercial" Ltd.**, founded in Sofia in 1994, is one of the leading companies in the sale of high-alcohol beverages, wines, beer, tobacco products, and others.

Years ago, during the COVID pandemic, we realized that we needed to seriously focus on online commerce. We understood that our existing website had become outdated and that we needed a new and modern one.

While searching for someone to develop our online store, and after holding various meetings with different companies, we at **SiD** chose **Stenik**. The reason, and the difference from others, was that they communicated things clearly and precisely. They understood the problems and had experience from other projects in the same industry.

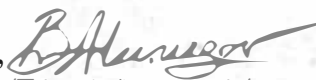

Thanks to our joint work and all the **know-how** they have provided over the years, we have established ourselves as a leader in online trade in alcoholic and non-alcoholic beverages. The team has always responded quickly and efficiently, for which we are grateful.

Several years later, we believe we chose the right partner, and if we had the chance to choose again, we would gladly and confidently choose **Stenik**.

We recommend them to anyone looking to grow in the online sphere. It is rare to come across an IT company that has a deep understanding of commerce as a whole. They have taken their place beside us as a reliable partner with whom we hope to continue implementing future plans and projects.

Undoubtedly, Stenik not only provides solutions for your business but also develops e-commerce in Bulgaria to a level that can be compared internationally.

Respectfully,

  
/Boris Atanasov/ **ОВ/**
